

# **IMPORT HEALTH STANDARD FOR THE IMPORTATION INTO NEW ZEALAND OF FROZEN DEER BY-PRODUCTS FOR FURTHER PROCESSING FROM NEW CALEDONIA**

## **1. IMPORT HEALTH STANDARD**

Pursuant to section 22 of the Biosecurity Act 1993, this document is the Import Health Standard for the Importation into New Zealand of Frozen Deer By-Products for Further Processing from New Caledonia.

## **2. PERMIT TO IMPORT**

2.1 A permit to import is not required for the importation into New Zealand of frozen deer by-products for further processing from New Caledonia.

2.2 Authorization, in the form of biosecurity clearance, will be given at the border after verification that the conditions within this import health standard have been met by the importer.

## **3. INFORMATION TO BE SUPPLIED BY IMPORTER**

The importer shall supply the following information:

3.1 name and address of exporter;

3.2 name and address of manufacturer;

3.3 description and type of product;

3.4 premises number (for meat/meat by-products).

## **4. REVIEW OF IMPORT HEALTH STANDARD**

The import health standard may be reviewed and amended if there are changes in New Zealand's import policy, or the animal health status of the originating country, or for any other reason, at the discretion of the Director of Animal Biosecurity.

## **5. DEFINITION OF TERMS**

*By-products*: this refers to any item imported for further processing and not intended for direct human consumption within New Zealand. Such items may include spleens, pancreas glands, tracheae, pizzles, sinews, testicles, tails etc.

## 6. DOCUMENTATION ACCOMPANYING THE CONSIGNMENT

A copy of the import health standard, together with all the required information and certification, which must be in English or a bilingual (French/English) form, must be presented at the New Zealand border when requesting clearance of the consignment.

## 7. IMPORTER'S RESPONSIBILITIES

7.1 All costs associated with the importation, which include testing, treatment, transport, servicing and veterinary certification must be borne by the importer.

7.2 Once the consignment has been cleared for entry, it is the importer's responsibility to ensure that the consignment complies with requirements under the Meat Act (1981). A set of guidelines outlining these responsibilities maybe obtained by writing to: Import Management, Animal Biosecurity, Biosecurity Authority, Ministry of Agriculture & Forestry, PO Box 2526, Wellington, NEW ZEALAND.

7.3 The products must not be sent for further processing to any premises where feed suitable for ruminants in produced under the Biosecurity (Ruminant Protein) Regulations 1999.

7.4 If the products are used to manufacture animal food (e.g. petfood) or fertiliser, the consignment shall be labelled in accordance with clause 14(c)(ii) of the Biosecurity (Ruminant Protein) Regulations 1999.

## 8. HEALTH CERTIFICATION

Each consignment must be accompanied by a certificate issued by an official government veterinary officer which states that:

8.1 foot and mouth disease and rinderpest have not occurred in New Caledonia during the previous 12 months.

8.2 the products are derived from animals that were subject to ante-mortem and post-mortem veterinary inspection at the time of slaughter and were found to be free from evidence of infectious or contagious diseases.

8.3 the products were processed in European Community registered premises under the supervision of the controlling authority and in accordance with New Caledonian regulations.

9. BIOSECURITY CLEARANCE

A Biosecurity Clearance will be issued provided the documentation is in order.
